Chairman's report (incorporating the strategic review)

This has been an excellent year for the Company business growth as a global agri-logistics logistics provider, and I am pleased to present the annual report and financial statements for AfriAg Global plc (the "Company" and, together with its wholly owned subsidiaries, the "Group") for the year ended 31 December 2016.

Our global distribution footprint has expanded considerably during the year, as we moved to distributing perishable food products by road, air and sea for and to global customers (South Africa, Mauritius, Mozambique, Zimbabwe, Zambia, DRC, Kenya, USA, UK, France, Holland, Russia, Japan, New Zealand and others).

AfriAg Marketing had a very strong year, with revenues growing 54% to £3.035 million during the period, a significant increase from the previous year's reported revenue of £1.977 million.

Specialist global agri-logistics group AfriAg SA, continues to grow at a fast pace and has developed into a significant global logistics enterprise. It has reported a 91% increase in full year revenues to £11.704 million for the twelve months ended 31 December2016, versus revenues of £6.122 million for the previous year, with a gross profit of £927,000 (2015: £552,000) and a net profit for the year of £104,000 (2015: £359,000). The Company has equity-accounted for its 40% share of this profit for 2016, being £42,000.

Gross profit for the Group also increased significantly to £334,000 compared to the £50,000 reported for the previous year.

Group Results for the period:

- The Group's gross turnover has increased by over 54% to £3.035 million for the year (2015 £1.977 million).
- The Group's net loss after taxation for the year was £9,000 (2015 £96,000 loss).
- The Group's current assets including cash at 31 December 2016 amounted to £1,261,000 (2015 £810,000).
- The Group's 40% owned agri-logistics investment, AfriAg (Pty) Ltd, gross turnover increased 91% to £11.704 million (2015 £6.122 million) and reported a net profit of £104,000 (2015 £359,000).

Strategic Review for the Period:

AfriAg Global was formed only 4 years ago with the view of establishing a global agri-logistics company, with the principal aim of exporting African perishable food products to the global market place. We are now seeing this business plan coming together as envisaged and are now rapidly expanding our operations to providing elite logistic solutions for the timely movement of perishable food not only from Africa to the world but also from the world in to Africa.

At the heart of our business is our own global network, fleet and staff based in Johannesburg at our large modern facilities near O.R. Tambo International Airport. The AfriAg HQ is a full-service logistics facility equipped with the latest facilities to meet our customer's demanding needs.

And our global partner network spans strategic road, air and sea routes harnessing our resources across this network enables us to deliver bespoke logistics solutions for our customers.

We have strong relationships with our freight counterparties and their branches, fleet, facilities and infrastructure in locations across Europe, Asia, North Americas, and the Middle East.

AfriAg has grown to supply our customers with world class global logistics delivering across our global footprint, international and domestic freight transport services, distribution and refrigerated warehousing services through to remote haulage logistics, aviation and marine logistics support services.

Chairman's report (incorporating the strategic review)

Delivering these services are our main priority. Collectively, they enable us to efficiently and effectively deliver the solutions our customers are looking for, right around the world.

AfriAg Marketing Pty Ltd (100% owned by AfriAg Global Plc):

AfriAg Marketing has experienced an excellent year of trading, increasing revenues to ZAR 60.562 million (£3.035 million) in 2016, compared to ZAR 38.395 million (£1.977 million) in 2015. This 54% increase in revenue not only demonstrates strong development, it also reinforces the belief that the company's low-overhead, growerfocused structure works in today's market. The model has been keenly welcomed by both growers and end clients.

This year, the business has been active in the export, distribution and trading of blueberry, passion fruit, pineapple, apple, strawberry, butternut, peas, fine beans, mange tout, sugar snap, baby corn, chillies, baby veg, and herbs.

As well as the UK, the company is now supplying Switzerland, the Netherlands, New Zealand, Russia, and the USA (New York and Los Angeles).

In this respect, the addition of a UK office has proven very beneficial in terms of range development and in driving the business into more strategic markets. This maximises the potential of the growers, and the appetite from the market for a more direct relationship with growers has also been welcomed.

Profit levels remained good at ZAR 2.057 million (£105,000) despite a forex loss of ZAR 1.297 million (£67,000) caused by the immediate fall-out from the UK's Brexit vote. The recovery from this exchange rate issue showed that the foundations of the business are strong and augurs well for ongoing growth.

The company's core ethos (of maximising the return to growers, paying them on the best terms available, and ensuring that end clients get exactly what they want) is reaping its reward. Both sides are coming back and asking for more. This we feel is the main reason for continued success and will remain our motivation.

The coming year promises more exciting times as the company builds on the foundations laid. The decision to drive into more diverse markets worldwide during periods of economic uncertainty is opening the door to significant growth, and our in-house logistics strength undoubtedly adds huge value. This stands out as a relatively unique offering in the market place. It remains clear that the model is both working and gaining momentum.

AfriAg (Pty) Limited (40% owned by AfriAg Global Plc):

AfriAg SA is a truly global and fast growing logistics business. Road haulage, air freight and sea freight of fresh and frozen food in to and out of Africa and to many destinations around the world.

AfriAg SA now operates logistics services to many major global cities and ports around the globe. The company has turned into a truly global enterprise and we seeing tremendous growth across many markets. We are now one of the largest air freighters of perishable food out of southern Africa using some of the world's largest airlines and providing bespoke first world logistics to destinations all over the world through our rapidly expanding global network of airlines and agents.

AfriAg SA had an outstanding trading year in 2016, reporting an increase of 91% in revenues to £11.704 million in the full year to 31 December 2016, versus revenue of £6.122 million for the previous year, with a gross profit of £927,000, a net profit for the year of £104,000. The Company has equity-accounted for its 40% share of this profit for 2016, being £42,000.

Chairman's report (incorporating the strategic review)

Public Trading Platform for the Company's shares:

On 25 January 2016, the Company posted a circular to Shareholders convening a general meeting on 16 February 2016 proposing that Shareholder's should vote to cancel the admission of the Company's Ordinary Shares to trading on AIM under AIM Rule 41.

The Company's Board had determined that in their view and given the size and stage of development of the Company, that the ISDX Growth Market (now renamed NEX Exchange Growth Market) provides Shareholders with the most appropriate listing platform on which to promote the Company's growth strategy.

On 16 February 2016, the Company's Shareholders voted in favour at that General Meeting to delist from the London AIM market.

The Company's shares ceased trading on AIM market on 24 February 2016 and remain trading on London's NEX Exchange Growth Market under the Ticker Symbol "AFRI".

Change of Name:

The Company changed its name on 25 July 2016, from AfriAg Plc to AfriAg Global Plc to reflect the dramatic changes seen by the business since its birth from an African centric bespoke food logistics business to one that now provides global logistics, food sales, marketing and bespoke distribution services to many corporations and food wholesalers around the world.

The Company's ticker symbol on the London ISDX Growth Market (now called NEX Exchange Growth Market) remained unchanged as "AFRI" and the Company's new website changed to www.afriagglobal.com.

Outlook

The Company anticipates another year of strong growth. The Company also intends to identify further investments in the African agri-logistics sector, to enhance the AfriAg brand, which has now become very well established.

The Board would like to take this opportunity to thank our shareholders, staff and consultants for their continued support and I look forward to reporting further significant progress over the next period and beyond.

David Lenigas Executive Chairman 9 May 2017

Directors' report

The directors present their report on the group and its audited financial statements for the year ended 31 December 2016.

Principal activity

The principal activity of the Group is that of investing by seeking to acquire a direct and/or indirect interest in projects and assets in the agriculture and logistics sectors. The Group currently has a focus on opportunities in Africa, Europe and the Middle East but will consider possible opportunities anywhere in the world.

Results and dividends

The income statement is set out on page 10 and has been prepared in Sterling, the functional and reporting currency of the parent company.

The Group's net loss after taxation attributable to equity holders of AfriAg Global plc for the year was £9,000 (2015 - £96,000 loss).

No dividends have been paid or proposed.

Review of the business and future developments

A full review of the Group's performance, financial position and future prospects is given in the Chairman's Report, incorporating the Strategic Review.

Directors and their interests

The interests of the Directors at 31 December 2016 in the ordinary share capital of the Company (all beneficially held) were as follows

	31 December 2016 No.	31 December 2015 or date of resignation No.
David Lenigas	124,000,000	121,000,000
Anthony Samaha	-	-
Donald Strang	40,000,000	40,000,000
Hamish Harris	40,000,000	40,000,000

In addition to the issued shares shown above, David Lenigas, Donald Strang and Hamish Harris each hold options over 13,000,000; 13,600,000 and 13,600,000 ordinary shares respectively, exercisable at 0.1p at any time up to 31 December 2020.

Directors' report (continued)

Substantial shareholdings

Other than as summarised below, the Directors have not been advised of any individual interest, or group or interests held by persons acting together, which at 8 May 2017 exceeded 3% of the Company's issued share capital.

	Number of	% of issued share capital
	Ordinary Shares	
	held	
Pershing Nominees Limited	238,000,000	17.23%
Vidacos Nominees Limited	229,750,000	16.64%
Barclayshare Nominees Limited	103,856,205	7.52%
Mr. Paul de Robillard	100,000,000	7.24%
Beaufort Nominees Limited	75,242,807	5.45%
Redmayne (Nominees) Limited	61,300,000	4.44%
HSBC Global Custody Nominee (UK) Limited	55,000,000	3.98%
Hargreaves Lansdown (Nominees) Limited	51,891,313	3.76%
Ferlim Nominees Limited	50,000,000	3.62%
TD Direct Investing Nominees (Europe) Limited	44,282,218	3.21%

Employees

The Company has no directly employed personnel.

Creditor payment policy

The policy of the Company is to:

- (a) Agree the terms of payment with suppliers when settling the terms of each transaction;
- (b) Ensure that suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts; and
- (c) Pay in accordance with its contractual and other legal obligations provided suppliers comply with the terms and conditions of supply.

Directors' liability

As permitted by the Isle of Man Companies Act 2006, the Company has purchased insurance cover for the Directors against liabilities in relation to the Company.

Charitable donations

During the period, the Company made no charitable donations (2015 - £Nil).

Financial reporting

The Board has ultimate responsibility for the preparation of the annual audited accounts. A detailed review of the performance of the Group is contained in the Chairman's report. Presenting the Chairman's report and Director's Report, the Board seeks to present a balanced and understandable assessment of the Group's position, performance and prospects.

Internal control

A key objective of the Directors is to safeguard the value of the business and assets of the Group. This requires the development of relevant policies and appropriate internal controls to ensure proper management of the Group's resources and the identification and mitigation of risks which might serve to undermine them. The Directors are responsible for the Group's system of internal control and for reviewing its effectiveness. It should, however, be recognised that such a system can provide only reasonable and not absolute assurance against material misstatement or loss.

Directors' report (continued)

Risk management

The directors have in place a process of regularly reviewing risks to the business and monitoring associated controls, actions and contingency plans.

The Group's financial risk management policies are set out in Note 20.

Corporate Governance

Audit and Remuneration Committees have been established and both comprise Donald Strang and Hamish Harris, with Hamish Harris as Chairman thereof.

The role of the Remuneration Committee is to review the performance of the executive Directors and to set the scale and structure of their remuneration, including bonus arrangements. The Remuneration Committee also administers and establishes performance targets for the Company's employee share schemes and executive incentive schemes for key management. In exercising this role, the terms of reference of the Remuneration Committee require it to comply with the Code of Best Practice published in the Combined Code.

The Audit Committee is responsible for making recommendations to the Board on the appointment of the auditors and the audit fee, and receives and reviews reports from management and the Company's auditors on the internal control systems in use throughout the Company and its accounting policies.

Going concern

The Directors noted the losses that the Group has made for the year ended 31 December 2016. The Directors have prepared cash flow forecasts for the period ending 31 May 2018 which take account of the current cost and operational structure of the Group.

The cost structure of the Group and Parent Company comprises a high proportion of discretionary spend and therefore in the event that cash flows become constrained, costs can be quickly reduced to enable the Group and Parent Company to operate within its available funding.

These forecasts demonstrate that the Group has sufficient cash funds available to allow it to continue in business for a period of at least twelve months from the date of approval of these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

It is the prime responsibility of the Board to ensure the Group and Parent Company remains as going concerns. At 31 December 2016 the Group had cash and cash equivalents of £240,000 and borrowings of £nil. The Group and Parent Company has minimal contractual expenditure commitments and the Board considers the present funds sufficient to maintain the working capital of the Group and Parent Company for a period of at least 12 months from the date of signing the Annual Report and Financial Statements. For these reasons the Directors adopt the going concern basis in the preparation of the Financial Statements

Directors' report (continued)

Statement of directors' responsibilities

Isle of Man company law requires the directors to keep reliable accounting records which correctly explain the transactions of the Company, enable the financial position of the Company to be determined with reasonable accuracy at any time and allow financial statements to be prepared. The shareholders have resolved, in accordance with the Companies Act 2006 and the Articles of Association, that the directors prepare financial statements for each financial period which give a true and fair view of the state of affairs of the Company and of its profit or loss for that period.

On this basis the directors have elected to prepare the financial statements for the Company in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. In preparing these financial statements, International Accounting Standard 1 requires that:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable IFRSs have been followed, subject to any material departures disclosed and explained in the accounts; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will
 continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the accounts comply with the Isle of Man Companies Act 2006. They have a general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Website publication

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom and the Isle of Man governing the preparation and dissemination of accounts may differ from legislation in other jurisdictions.

Statement of disclosure to auditors

So far as the directors are aware, there is no relevant audit information of which the Company's auditors are unaware.

Additionally, the directors have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the Company's auditors are aware of that information.

By order of the Board of Directors

David Lenigas Director 9 May 2017

Independent auditor's report to the members of AfriAg Global plc

We have audited the financial statements of AfriAg Global plc for the period to 31 December 2016 which comprise the Consolidated Statement of Comprehensive Income, the Consolidated Statement of Financial Position, the Company Statement of Financial Position, the Consolidated Statement of Changes in Equity, the Company Statement of Changes in Equity, the Consolidated Statement of Cash Flows, the Company Statement of Cash Flows, and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with the Isle of Man Companies Acts of 1931 to 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for the preparation of the accounts and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the accounts in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit

A description of the scope of an audit of Financial Statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on the financial statements

In our opinion the financial statements:

- the financial statements give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2016 and of the group's loss, and of the group's and parent company's cash flows for the year then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union and as applied in accordance with the provisions of the Isle of Man Companies Acts 1931 to 2006; and
- the financial statements have been prepared in accordance with the requirements of the Isle of Man Companies Acts 1931 to 2006.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Isle of Man Companies Acts 1931 to 2006 requires us to report to you, if in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the accounts are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Keith Fulton (Senior Statutory Auditor) for and on behalf of Chapman Davis LLP Chartered Accountants and Statutory Auditors London 9 May 2017

Notes to the financial statements

1 General information

AfriAg Global plc is a company incorporated in the Isle of Man under the Isle of Man Companies Act 2006. The address of its registered office is 34 North Quay, Douglas, Isle of Man, IM1 4LB. The Company's ordinary shares are traded on the NEX Exchange Growth Market as operated by NEX Exchange Ltd ("NEX"). On 19 July 2016, the Company changed its name from Afriag Plc to Afriag Global Plc by way of a statutory notice of change of name filed at Isle of Man Registry.

The financial statements of Afriag Global plc for the year ended 31 December 2016 were authorised for issue by the Board on 9 May 2017 and the statements of financial position signed on the Board's behalf by Mr. David Lenigas and Mr Donald Strang.

Investing policy

AfriAg plc, was re-classified as an Investing Company and the following investing strategy has been approved by shareholders:

The Directors intend to seek to acquire a direct and/or an indirect interest in businesses involved in agriculture generally and the production, processing, logistics and distribution of agricultural produce.

The Company will initially focus on opportunities in Europe, Africa and the Middle East but will consider possible opportunities anywhere in the world.

The Company may invest by way of purchasing quoted shares in appropriate companies, outright acquisition or by the acquisition of assets, including the intellectual property, of a relevant business, or by entering into partnerships or joint venture arrangements. Such investments may result in the Company acquiring the whole or part of a company (which in the case of an investment in a company may be private or listed on a stock exchange, and which may be pre-revenue), and such investments may constitute a minority stake in the company, partnership and/or joint venture in question. The Company will not have a separate investment manager.

The Company may be both an active and a passive investor depending on the nature of the individual investments. Although the Company intends to be a medium to long-term investor, the Directors will place no minimum or maximum limit on the length of time that any investment may be held and therefore shorter term disposal of any investments cannot be ruled out.

There will be no limit on the number of businesses into which the Company may invest, and the Company's financial resources may be invested in a number of propositions or in just one investment.

Investments may be in all types of assets and there will be no investment restrictions. The Company will require additional funding as investments are made and new opportunities arise. The Directors may offer new Ordinary Shares by way of consideration as well as cash, thereby helping to preserve the Company's cash resources for working capital. The Company may in appropriate circumstances, issue debt securities or otherwise borrow money to complete an investment. The Directors do not intend to acquire any cross-holdings in other corporate entities that have an interest in the Ordinary Shares.

Statement of compliance with IFRS

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and as applied in accordance with the provisions of the Companies Act 2006. The principal accounting policies adopted by the Company are set out below.

Notes to the financial statements (continued)

New standards, amendments and interpretations adopted by the Company

No new and/or revised Standards and Interpretations have been required to be adopted, and/or are applicable in the current year by/to the Company, as standards, amendments and interpretations which are effective for the financial year beginning on 1 January 2016 are not material to the Company.

New standards, amendments and interpretations not yet adopted

At the date of authorisation of these financial statements, the following Standards and Interpretations which have not been applied in these financial statements, were in issue but not yet effective for the year presented:

- IFRS 9 in respect of Financial Instruments which will be effective for the accounting periods beginning on or after 1 January 2018.
- IFRS 15 in respect of Revenue from Contracts with Customers which will be effective for accounting periods beginning on or after 1 January 2018.
- IFRS 16 in respect of Leases which will be effective for accounting periods beginning on or after 1 January 2019.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

Going Concern

The Directors noted the losses that the Group has made for the Year Ended 31 December 2016. The Directors have prepared cash flow forecasts for the period ending 31 May 2018 which take account of the current cost and operational structure of the Group.

The cost structure of the Group and Parent Company comprises a high proportion of discretionary spend and therefore in the event that cash flows become constrained, costs can be quickly reduced to enable the Group and Parent Company to operate within its available funding.

These forecasts demonstrate that the Group has sufficient cash funds available to allow it to continue in business for a period of at least twelve months from the date of approval of these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

It is the prime responsibility of the Board to ensure the Group and Parent Company remains as going concerns. At 31 December 2016, the Group had cash and cash equivalents of £240,000 and borrowings of £nil. The Group and Parent Company has minimal contractual expenditure commitments and the Board considers the present funds sufficient to maintain the working capital of the Group and Parent Company for a period of at least 12 months from the date of signing the Annual Report and Financial Statements. For these reasons the Directors adopt the going concern basis in the preparation of the Financial Statements.

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for the measurement to fair value of assets and financial instruments as described in the accounting policies below, and on a going concern basis.

The financial report is presented in Pound Sterling (£) and all values are rounded to the nearest thousand pounds (£'000) unless otherwise stated.

Notes to the financial statements (continued)

2 Significant accounting policies

Basis of Consolidation

The Group financial statements consolidate those of the Company and all of its subsidiary undertakings drawn up to the balance sheet date. Subsidiaries are entities over which the Company has the power to control, directly or indirectly, the financial and operating policies so as to obtain benefits from their activities. The Company obtains and exercises control through voting rights. Subsidiaries are fully consolidated from the date at which control is transferred to the Company. They are deconsolidated from the date that control ceases.

Unrealised gains on transactions between the Company and its subsidiaries are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Acquisitions of subsidiaries are dealt with by the acquisition method. The acquisition method involves the recognition at fair value of all identifiable assets and liabilities, including contingent liabilities of the subsidiary, at the acquisition date, regardless of whether or not they were recorded in the financial statements of the subsidiary prior to acquisition. On initial recognition, the assets and liabilities of the subsidiary are included in the consolidated balance sheet at their fair values, which are also used as the bases for subsequent measurement in accordance with the Group accounting policies. Goodwill is stated after separating out identifiable intangible assets. Goodwill represents the excess of acquisition cost over the fair value of the Group's share of the identifiable net assets of the acquired subsidiary at the date of acquisition. Acquisition costs are written off as incurred.

Investments in associates are initially recognised at cost and subsequently accounted for using the equity method. Any goodwill or fair value adjustment attributable to the Group's share in the associate is not recognised separately and is included in the amount recognised as investment in associate. The carrying amount of the investment in associates is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate, adjusted where necessary to ensure consistency with the accounting policies of the Group. Unrealised gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts from the sales of goods provided in the normal course of business, net of value added tax and discounts, and is recognised when the significant risks and rewards of ownership of the product have been transferred to a third party. In the case of sale or return transactions, revenue is only recognised when, and only to the level that, risks and rewards are transferred.

Revenue is the invoiced value of goods and services supplied and excludes VAT and other sales based taxes.

Notes to the financial statements (continued)

2 Significant accounting policies (continued)

Finance costs / investment revenue

Borrowing costs are recognised as an expense when incurred.

Investment revenue is recognised as the Group becomes entitled to such revenue. Dividends are accounted for on receipt thereof.

Property, plant and equipment - General

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is provided on all tangible assets to write off the cost less estimated residual value of each asset over its expected useful economic life on a straight-line basis at the following annual rates:

• Plant and Equipment – between 5 per cent and 25 per cent

All assets are subject to annual impairment reviews.

Inventories

Inventories are stated at the lower of cost and net realisable value.

Financial instruments

Financial assets and financial liabilities are recognised on the Group and Company's statement of financial position when the Group or Company becomes a party to the contractual provisions of the instrument.

The Company's activities give rise to some exposure to the financial risks of changes in interest rates and foreign currency exchange rates. The Company has no borrowings and is principally funded by equity, maintaining all its funds in bank accounts.

Financial assets

Financial assets are classified into the following specified categories; financial assets "at fair value through profit or loss" (FVTPL), "held to maturity" investments, "available for sale" (AFS) financial assets and "loans and receivables". The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Available for sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. The Group's available-for-sale financial assets include listed securities. These available-for-sale financial assets are measured at fair value. Realised Gains and losses are recognised in the income statement and unrealised gains and losses in other comprehensive income and reported within the available-for-sale reserve within equity, except for permanent impairment losses and foreign exchange differences, which are recognised in the income statement. When the asset is disposed of or is determined to be impaired, the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to the income statement and presented as a reclassification adjustment within other comprehensive income. Interest calculated using the effective interest method and dividends are recognised in the income statement within investment income.

Reversals of impairment losses are recognised in other comprehensive income.

Notes to the financial statements (continued)

2 Significant accounting policies (continued)

Equity

Share capital is determined using the nominal value of shares that have been issued.

The share premium account represents premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from share premium, net of any related income tax benefits.

The share based payment reserve represents the cumulative amount which has been expensed in the income statement in connection with share based payments, less any amounts transferred to retained earnings on the exercise of share options.

Foreign currency reserve represents the exchange translation gains/(losses) on converting overseas subsidiaries.

Revaluation reserve represents the unrealised gain or loss on fair/market value movement on available for sale investments and other assets which are valued at their fair value at the balance sheet date.

Retained earnings include all current and prior period results as disclosed in the income statement.

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, and bank overdrafts. Bank overdrafts are shown within current liabilities on the balance sheet.

Financial liabilities

Financial liabilities are obligations to pay cash or other financial assets and are recognised when the Group becomes a party to the contractual provisions of the instrument.

All financial liabilities initially recognised at fair value less transaction costs and thereafter carried at amortised cost using the effective interest method, with interest-related charges recognised as an expense in finance cost in the income statement. A financial liability is derecognised only when the obligation is extinguished, that is, when the obligation is discharged or cancelled or expires.

Trade payables

Trade payables are non-interest-bearing and are initially measured at fair value and thereafter at amortised cost using the effective interest rate.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the period. Taxable profit differs from the net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Notes to the financial statements (continued)

2 Significant accounting policies (continued)

Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that the Group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation

Share based payments

The Company issues equity-settled share based benefits to employees. All equity-settled share-based payments are ultimately recognised as an expense in profit or loss with a corresponding credit to reserves.

Share-based payments relating to the subsidiary company increase the carrying value of the investment in the subsidiary and are included in the loss on disposal of the subsidiary.

If vesting periods or other non-market vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognised in the current period. No adjustment is made to any expense recognised in prior periods if share options ultimately exercised are different to that estimated on vesting.

Upon exercise of share options the proceeds received net of attributable transaction costs are credited to share capital, and where appropriate share premium.

3 Critical accounting judgements and key sources of estimation uncertainty

In the process of applying the Group's accounting policies, as described in note 2, management has made the following judgements that have the most significant effect on the amounts recognised in the financial statements.

Valuation of share based payments to employees

The Company estimates the expected value of share based payments to employees and this is charged through the income statement over the vesting period. The fair value is estimated using the Black Scholes valuation model which requires a number of assumptions to be made such as level of share vesting, time of exercise, expected length of service and employee turnover and share price volatility. This method of estimating the value of share based payments is intended to ensure that the actual value transferred to employees is provided for by the time such payments are made.

Notes to the financial statements (continued)

4 Segmental information

An operating segment is a distinguishable component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker to make decisions about the allocation of resources and assessment of performance and about which discrete financial information is available.

The chief operating decision maker has defined that the Group's only reportable operating segments during the period are the agriculture and logistics sector, and the parent company/investment.

Subject to further acquisitions the Group expects to further review its segmental information during the forthcoming financial year.

The Group has generated revenues from external customers during the period of £3,035,000 (2015: £1,977,000), and £nil (2015: £nil) revenue is from management fees to the associate company.

In respect of the total assets of £2,783,000 (2015: £2,288,000), £85,000 (2015: £245,000) arise in the parent company, and £2,698,000 (2015: £2,043,000) arise in South Africa.

Shares issued during the year ended 31 December 2016:

No shares were issued by the Company during the year to 31 December 2016 (2015: nil).

Warrants in issue

As at 31 December 2016, nil warrants (2015: nil) remain outstanding. No warrants were issued, exercised, or lapsed during the year ended 31 December 2016 (2015: nil).

Share Options

The Company has as at 31 December 2016, 129,000,000 (2015: 79,000,000) share options issued through its share schemes. During the year 60,000,000 options were issued (2015: nil), no options were exercised (2015: nil), 10,000,000 options were cancelled or lapsed (2015: nil).

Notes to the financial statements (continued)

18 Share capital (continued)

Employment Benefit Trust ("EBT")

The Company established on 3 October 2014 a share incentive plan ("SIP") and effective as of 3 October 2014. The purpose of the SIP is to incentivise officers, employees and consultants of the Company by the award of ordinary shares in the capital of the Company ("Ordinary Shares") for no cost. Ordinary Shares under this plan will not exceed 10 per cent of the Company's issued share capital from time to time without the prior approval of shareholders of the Company.

The Company also established on 3 October 2014, an employee benefit trust called the AfriAg Employee Benefit Trust ("EBT") to implement the use of the SIP. The EBT is a discretionary trust for the benefit of directors, employees and consultants of the Company and its subsidiaries.

Accordingly, the trustees of the EBT subscribed for 118,000,000 new ordinary shares of 0.1p each in the Company, at par value per share at an aggregate cost to the Company of £118,000, such shares representing 9% of the so enlarged issued share capital of the Company. The shares held in the EBT are intended to be used to satisfy future awards made by the Company's Remuneration Committee under the SIP. It is intended that any individual awards under the scheme will be subject to vesting and performance conditions. There have been no further subscriptions during the year ended 31 December 2016 (2015: nil). On 11 August 2016, the Company awarded 100 million of the EBT shares to Mr P de Robillard, who is responsible for managing the Group's logisitics divisions, leaving 18 million shares held by the EBT.

19 Share based payments

A modified Black-Scholes model has been used to determine the fair value of the share options on the date of grant. The fair value is expensed to the income statement on a straight line basis over the vesting period, which is determined annually. The model assesses a number of factors in calculating the fair value. These include the market price on the date of grant, the exercise price of the share options, the expected share price volatility of the Company's share price, the expected life of the options, the risk free rate of interest and the expected level of dividends in future periods.

As disclosed in note 5 the share option charge for the period was £98,000 (2015 - £nil)

The inputs into the model for the 2016 issues were as follows:

	July 2016 Options	August 2016 Options
Number of options	50,000,000	10,000,000
Volatility	79.00%	79.00%
Market price	£0.00255	£0.00325

Notes to the financial statements (continued)

20 Financial instruments

The Group's financial instruments comprise cash at bank and payables which arise in the normal course of business. It is, and has been throughout the period under review, the Group's policy that no speculative trading in financial instruments shall be undertaken. The Group has been solely equity funded during the period. As a result, the main risk arising from the Group's financial instruments is currency risk.

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 2 of the accounts.

	2016	2015
	£'000	£'000
Financial assets (current)		
Trade receivables	345	226
Cash and cash equivalents	240	248
Financial liabilities (current)		
Trade payables	402	213

Interest rate risk and liquidity risk

The Group is funded by equity, maintaining all its funds in bank accounts. The Group's policy throughout the period has been to minimise the risk of placing available funds on short term deposit. The short-term deposits are placed with banks for periods up to 1 month according to funding requirements.

The Group had no undrawn committed borrowing facilities at any time during the period.

Currency risk

The group is directly exposed to currency risk of its subsidiaries, as they are based in South Africa, and exposed to movement against the South African Rand as their assets, liabilities, revenue and expenditure are denominated therein. The parent company is denominated in pound sterling.

Market risk

The group and company's current exposure to market risk in relation to its AFS investments, which are listed on stock markets throughout the world.

Fair values

Cash and cash equivalents (which are presented as a single class of assets on the face of the balance sheet) comprise cash held by the company with an original maturity of three months or less. The carrying amount of these assets approximates their fair value.

The directors consider there to be no material difference between the book value of financial instruments and their values at the balance sheet date.

Notes to the financial statements (continued)

21 Related party transactions

Transactions between the Company and its subsidiaries, which are related parties, have been eliminated on consolidation and are not disclosed in this note. Transactions between other related parties are discussed below.

During the period, there were no related party transactions to disclose.

Remuneration of Key Management Personnel

The remuneration of the Directors and other key management personnel of the Group are set out below in aggregate for each of the categories specified in IAS24 Related party Disclosures.

	2016	2015
	£′000	£'000
